

100kW Rental Portable Load Bank

MoseBoch X100S-B

PORTABLE LOAD BANK

Mosebach's X100L load bank offers you a continuous load at 480/240/208 volts in a compact, ultra lightweight, indoor enclosure. The digital meter allows you to measure power, voltage, current and frequency while also allowing you to record the data as you do your testing. Power connections are easily done with our camlock connections. Auxiliary power of 120V is used for blower and control power. You should be up and testing within minutes of connecting your power source.
