

1250kW - 20ft Rental Generator CATERPILLAR PM1000

Reliable. Rugged. Durable design.

Factory designed, certified prototype tested with torsional analysis. Production tested and ready to be connected to your fuel and power lines. Compact, four-stroke-cycle diesel engine combines durability with minimum weight while providing dependability and economy. Two bearing, wye-connected, static regulated, brush-less permanent magnet excited generator designed to match the performance and output characteristics of the Caterpillar diesel engine that drives it.

Product Features

- User friendly control panel with simple navigation.
- Digital Voltage Regulator with adjustable volts-per-hertz regulation provides precise control and excellent block loading.
- Sound attenuated container provides ease of transportation and protection while meeting 87 dB(A).
- Environmentally friendly with 110% spill containment engine fluids.

Product Specifications

Performance Data

Fuel Capacity	500 Gallons
Run Time	8 hrs.

Electrical

Nominal Size Rating	910 kW Prime
Frequency	50/60Hz
Voltage	208-480V

Motor/Engine

Engine	C-32 Tier II
Fuel	Diesel

Dimensions

Width x Length x Height	96 x 240 x 102 in.
Weight	29,300 lbs.
