

## Rental Ground Thaw Heater Wacker Neuson E5000

### One hydronic heater, multiple applications.

The most versatile hydronic surface heater, the E 5000 thaws, cures, prevents frost, heats and dries all without the use of additional pump packs. The unique pump system provides maximum flow rate regardless of the application. The E5000 thaws or cures up to 10,000 sq. ft. With accessories, this machine will cure up to 30,000 sq. ft., heat up to 1,700,000 cu. ft. or provide 576,000 cu. ft. of dry heat with up to 64 hours of run time.

### Product Features

- The E 5000 is engineered for reliable performance and trouble-free starts for up to 64 hours of run time at 83% efficiency, the highest in the industry.
- With 5,000 ft. of hose and a hydraulic hose system, the E 5000 allows for single person set-up and placement, for greater flexibility on all applications.
- Powerful pump system provides all the flow and pressure to deliver maximum performance for thaw, cure and air heat applications.
- Digital temperature controller with push button adjustment allows operators to easily adjust Heat Transfer Fluid (HTF) output temperature for all concrete curing applications.

### Product Specifications

#### Performance Data

Capacity Thaw	5,000 ft <sup>2</sup>
Capacity Cure	10,000 ft <sup>2</sup>
Operating Temp	180° F
BTU's Per Hour	860,000

#### Electrical

Requirements	120V
FLA	50 amps

#### Fuel

Consumption	6.14 gph
Capacity	235 gal.
Run Time	36 hrs.

#### Dimensions

Width×Length×Height	98×189×95 in.
Weight	10,700 lbs.
Hose Length	5,000 ft.
